(SW permits issued are not included in total)

**Building Inspections Completed: 125**

**Total Permits Issued: 55**

### **Projects:**

- **Happy Hollow Road and Trail Street Lighting:** The Happy Hollow Road and Trail Lighting project will install bollard style lighting posts along the trail on the west side of Happy Hollow Rd. and street/trail style lighting on the northern half of the project from Hollowood Dr. to Chippewa St. All lights are up and running. Midwestern Electric has completed all of the work associated with this project and will be completing all punch list items in the near future.

- **State Street:** Rieth-Riley has completed the paving from University St. to Airport Rd.

and final striping is currently taking place. This section of State St. should open back up to traffic by November 30, 2017 as scheduled. All traffic signals on State St. are now active. The vast majority of their work is now complete in most sections of State St. except for final clean-up and amenities. Rieth-Riley will continue to work on these items until the winter weather sets in.

- **Happy Hollow Stream Relocation:** The stream relocation project will be realigning the Happy Hollow Stream away from the roadway to prevent erosion and to improve the efficiency of the flow through the existing culvert. R & W Excavation has completed their work for this year. The sidewalk and railing are installed along the east side of Happy Hollow Road south of Catherwood Drive.
